Footnotes:

(1) The incidence rates represent the number of injuries and illnesses per 100 full-time workers and were calculated as: (N/EH) x

(2) Totals include data for industries not shown separately.

(3) North American Industry Classification System - United States, 2017.

(4) Days-away-from-work cases include those that result in days away from work with or without job transfer or restriction.

Note: Because of rounding, components may not add to totals. Dash indicates data do not meet publication guidelines.
